### **Banco Santander hires Evertec as processor of its acquiring business**

***The alliance with this leading technology and transaction processing company will allow the bank to have a thorough, secure and efficient acquisition network, as well as value added solutions and advanced fraud prevention.***

**Santiago, June 27, 2019.** Banco Santander Chile (NYSE:BSAC) informs that it signed a five-year agreement with Evertec, Inc. (NYSE: EVTC), a leading technology company in Latin America, which will provide processing services to the Bank's acquisition network, which will operate under the four-part model with all debit, credit and prepaid issuers.

Miguel Mata, General Manager for Banco Santander Chile, said "With Evertec's credentials as a leading regional payment processing company, Santander will leverage our robust client base to achieve our strategic objective of increasing the coverage, depth and security of the payment methods in Chile, both face-to-face as well as in e-commerce. As a result of this initiative, Santander will accelerate the transformation of the payments market in Chile allowing any entrepreneur, merchant or business owner to have their own point-of-sale (POS) device to accept card payments in a more secure manner."

Mata also asserted that "with this agreement a virtuous circle of competition will be generated that will allow transforming the payment market in Chile, enabling any entrepreneur or merchant to have their own POS to offer payment with cards to their customers, in a much safer environment". In our case, this also includes the imminent launch of SuperDigital, which will also permit more Chileans to access electronic payments, completing this virtuous circle"

"Banco Santander has been preparing for this transformation for the last two years. Last April, the test phase began and at the end of this year, the Bank plans to install its first POS. By the first quarter of 2020, the Bank expects to have significant operations in this market, explained Mata".

Under the agreement, Santander will have a complete, secure and efficient processing solution based in the cloud, which considers the acquisition platform, value-added solutions (e-commerce, mobile commerce and recurring payments), administrative services, and fraud prevention.

Mac Schuessler, President and Chief Executive Officer of Evertec said, "We are extremely pleased to provide our products and services to Banco Santander, the first bank to announce plans to open the Chilean payments market. We are confident that our platform and services, together with our team of experts in the processing and acquiring business, will drive innovation and accelerate market growth as market participants look for alternatives. This confirms our strategy of localizing our platform for key markets such as Chile, as well as the transition of our license products to processing products. As a processor with local capabilities, we believe we are well-positioned to meaningfully benefit as the market grows."

---

## **About Banco Santander**

Banco Santander Chile is the largest bank in the Chilean market in terms of loans and assets. As of March 31, 2019, the Bank had total assets for Ch\$39,668 million, loans net of provisions of Ch\$29,779 million, deposits of Ch\$21,462 million and total equity of Ch\$3,368 million. **Banco Santander contrata a Evertec  
como procesador de su negocio de adquirencia**

El acuerdo con esta empresa líder en tecnología y procesamiento de transacciones permitirá a la entidad bancaria contar con una red de adquirencia completa, segura y eficiente, además de soluciones de valor agregado, administración y prevención de fraude.

**Santiago, 27 de junio de 2019.** Banco Santander informó que suscribió un acuerdo por cinco años con Evertec, compañía tecnológica líder en América Latina, que proveerá los servicios de procesamiento a la red de adquirencia del Banco que operará en el modelo de cuatro partes con todos los emisores de débito, crédito y prepago.

Miguel Mata, gerente general de Banco Santander, destacó las credenciales de Evertec, firma líder a nivel regional y que “permitirá a Santander disponer de una base robusta para materializar el objetivo estratégico que busca aumentar en forma exponencial la cobertura, profundidad y seguridad de los medios de pago en Chile, tanto presencial como en e-commerce, logrando de esta forma que más chilenos y comercios puedan tener un punto de encuentro”.

Mata enfatizó que "con la red que desarrollará el Banco se generará una dinámica virtuosa de competencia que permitirá transformar el mercado en Chile, posibilitando que cualquier emprendedor, comerciante o empresario pueda tener su propia máquina para recibir pagos con tarjetas de sus clientes, en un espacio mucho más seguro". En nuestro caso, esto también considera el inminente lanzamiento de la tarjeta SuperDigital, para que más chilenos puedan acceder a los pagos electrónicos, completando así el círculo virtuoso”.

“En Banco Santander nos hemos preparado para producir esta transformación desde hace dos años, cumpliendo las distintas etapas del proyecto. En abril pasado iniciamos la fase de pruebas y a fines de este año proyectamos instalar los primeros POS para estar operando masivamente durante el primer trimestre del 2020”, señaló.

En virtud del acuerdo suscrito, Santander contará con una solución de procesamiento completa, segura y eficiente, basada en tecnología cloud, que considera la plataforma de adquirencia, soluciones de valor agregado (e-commerce, mobile commerce y pago recurrente), y de administración y prevención de fraude.

Mac Schuessler, principal oficial ejecutivo y presidente de Evertec, señaló que “confiamos en que nuestra plataforma y servicios junto a nuestro equipo de expertos en el negocio de procesamiento y adquirencia, impulsará la innovación y acelerará el crecimiento del mercado. Esto confirma la estrategia de localizar nuestra plataforma para mercados claves como Chile y otros países de la región, así como la de transformar nuestros productos de un modelo de licenciamiento a uno de procesamiento. Como procesador con capacidades locales, estamos confiados de estar bien posicionados para participar de una manera activa del crecimiento del mercado a futuro”.
