Santander

## Important information

Banco Santander Chile caution that this presentation contains forward looking statements within the meaning of the US Private Securities Litigation Reform Act of 1995. These forward looking statements are found in various places throughout this presentation and include, without limitation, statements concerning our future business development and economic performance. While these forward looking statements represent our judgment and future expectations concerning the development of our business, a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from our expectations. These factors include, but are not limited to: (1) general market, macro-economic, governmental and regulatory trends; (2) movements in local and international securities markets, currency exchange rates, and interest rates; (3) competitive pressures; (4) technological developments; and (5) changes in the financial position or credit worthiness of our customers, obligors and counterparties. The risk factors and other key factors that we have indicated in our past and future filings and reports, including those with the Securities and Exchange Commission of the United States of America, could adversely affect our business and financial performance.

Note: the information contained in this presentation is not audited and is presented in Chilean Bank GAAP which is similar to IFRS, but there are some differences. Please refer to our 2020 20-F filed with the SEC for an explanation of the differences between Chilean Bank GAAP and IFRS. Nevertheless, the consolidated accounts are prepared on the basis of generally accepted accounting principles. All figures presented are in nominal terms. Historical figures are not adjusted by inflation. Please note that this information is provided for comparative purposes only and that this restatement may undergo further changes during the year and, therefore, historical figures, including financial ratios, presented in this report may not be entirely comparable to future figures presented by the Bank.

2. Pilar 2: assumption of Pilar 2 of $0 \%$ Bank according to assessment policy of the CMF.
3. Management buffer: considers Board imposed buffer of $1 \%$ Core Capital
4. AT1: initially considers $1.5 \%$ of subordinated bonds currently in balance sheet to be gradually phased out and replaced with perpetual bonds in line with new BIS III regulations. Also includes Pilar 2 assumption
5. Tier 2: subordinated debt.

## A strong 2021 leads to positive outlook for 2022

- The Chilean economy should show moderate growth in 2022 following 12\% GDP growth in 2021
- Chilean financial system with high growth potential
- Santander Chile's various strategic initiatives have resulted in record client growth and strong improvements in NPS
- Loan growth accelerating in second half of 2021 and 2022
- Strong results in 2021 driven by higher NIMs due to better funding mix and higher inflation, strong growth of client revenues, improving asset quality and record efficiency levels.
