Banco Santander Chile 3Q 2018 Results

October 31, 2018

Important information

Banco Santander Chile caution that this presentation contains forward looking statements within the meaning of the US Private Securities Litigation Reform Act of 1995. These forward looking statements are found in various places throughout this presentation and include, without limitation, statements concerning our future business development and economic performance. While these forward looking statements represent our judgment and future expectations concerning the development of our business, a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from our expectations. These factors include, but are not limited to: (1) general market, macro-economic, governmental and regulatory trends; (2) movements in local and international securities markets, currency exchange rates, and interest rates; (3) competitive pressures; (4) technological developments; and (5) changes in the financial position or credit worthiness of our customers, obligors and counterparties. The risk factors and other key factors that we have indicated in our past and future filings and reports, including those with the Securities and Exchange Commission of the United States of America, could adversely affect our business and financial performance.

Note: the information contained in this presentation is not audited and is presented in Chilean Bank GAAP which is similar to IFRS, but there are some differences. Please refer to our 2016 20-F filed with the SEC for an explanation of the differences between Chilean Bank GAAP and IFRS. Nevertheless, the consolidated accounts are prepared on the basis of generally accepted accounting principles. All figures presented are in nominal terms. Historical figures are not adjusted by inflation. Please note that this information is provided for comparative purposes only and that this restatement may undergo further changes during the year and, therefore, historical figures, including financial ratios, presented in this report may not be entirely comparable to future figures presented by the Bank.

Sound outlook for 2019

- ✓ For 2018 stated ROE ~19%
- ✓ We maintain a positive view on the economy. GDP growth estimate of 3.5% in 2019.
- ✓ Inflation expectations rise to ~3% for 2019 with short-term rates rising 75bp
- **✓** Estimated loan growth of 8-10% with growth accelerating in higher yielding retail loans
- ✓ Core revenues growing in line with average loans:
 - NIMs of 4.4%-4.5% in 2019, depending on inflation and velocity of rate rises
 - Client loyalty and greater growth in mid-income segments should drive fee income
- ✓ Recurring cost of credit of 1.0% with stable asset quality. New provisioning requirement for commercial loans analyzed on a group basis ~18bp in terms of cost of credit
- **✓** Efficiency ratio 39.5%-40.0% led by improved productivity through digitalization
- ✓ Effective tax rate of ~22%

Recurring ROAE* of 19.0 – 19.5% in 2019

^{*} Excluding the effect of the change in provisioning models for commercial loans analyzed on a group basis.
